

Addendum No. 5

Request for Proposals ES-18-06

PRE-DESIGN AND DESIGN FOR A FULL-SERVICE TRANSFER STATION AT MACKENZIE REGIONAL LANDFILL

The addendum is being issued prior to the closing of the RFP to provide further information, make changes to, or to clarify the Contract Documents and is to be read, interpreted and coordinated with all other parts of the Contract Documents. In the case of a conflict with the balance of the documents, this Addendum shall govern. **Proponents shall attach a signed copy of this addendum to their Request for Proposals.** This addendum shall form part of the Contract Documents.

- 1) **Question:** Has the RD accepted the XCG report as the way forward? i.e. is any concept development still required?
- 2) **Question:** What would the RD like to see for area lighting? (Well lit access road and bins? No exterior lighting?)
- 3) **Question:** Will the transfer station building have other uses? I'm thinking particularly of office, washrooms, lunch room, kitchenette, storage room, laundry room, etc. If Yes, how many people will need to be accommodated? If Yes, can we assume that heating/HVAC will be for this space only? Does the RD have a preference for the energy source for heating? (gas, electricity?)
- 4) **Question:** Does the RD have any communication infrastructure in mind? e.g. landline, dial out alarms, etc.
- 5) **Question:** Is road development limited to the area between the entrance scale and the transfer building? If not, please clarify what is needed.

Answer to questions 1 through 5: RFP ES-18-06 is asking proponents for potential options for pre-design and design for the Mackenzie site with associated estimated costs. The funding approval for this project is based on The Mackenzie Regional Landfill – Transfer Station Feasibility Study.

Date: May 3, 2018

Addendum No. 5 Received.
